To whom it may concern,
I am writing this letter in order to urge you to reject the National Association of Broadcasters' petition 04-160.

I currently have three subscriptions to XM Radio, and highly value the instant weather and traffic information, as my family lives in the Boston Metropolitan area, where traffic knowledge is crucial to driving.

I have chosen to subscribe to XM Radio because they provide this valuable service, which is not available over conventional FM and AM radio. To prevent XM Radio from providing this service is unjust, akin to preventing cable TV from providing weather and traffic information.

Petition 04-160 simply does not make sense, legally or otherwise.

Sincerely,

David J. Monk
